Meeting started at 5 p.m.

Presentation by President Jack Kahn on the importance of Advisory Committees and the role they play in success of the college Prof-Tech programs. There were booklets handed out on committee member roles and responsibilities.

Individual program meetings were then held, Mark and Amber stated they had full classes and that there is currently a wait list for next quarter, they are seeing a demand in interest in the program

Everyone agrees that they would like Mark and Amber to send as many students as they can to their shop.

The starting pay has been raised in the last year for new technicians.

Gary and Amber are applying for a grant. This grant will allow Amber and Mark to buy new equipment. If you think of anything that we should have, please let us know.
